

On behalf of the MWU Lesser Poland Workshop in Ultrasound, we are delighted to invite you to Krakow, Poland for the Fetal Cardio Course which will be held on 8-9 May 2015.

The Fetal Cardio Course is an unique educational project aimed at medical professionals interested in developing ultrasound skills in fetal echocardiography theory and practice. It is dedicated to doctors and sonographers at all levels of competence in OB/GYN ultrasound. We believe that every participant, will learn how to scan fetal heart in proper and ergonomic way.

We look forward to greeting you at the Fetal Cardio Course in Krakow.

Marcin Wiecheć
