

Scientific Program 9th European ESIDOG/ 1st ISIDOG Conference in Riga, Latvia
29 October-1 November 2015

Thursday 17h00 **Meeting Country Managers ESIDOG/ISIDOG.** On invitation only
29 October 18h00 **State of the art lecture:**

19h00 **Welcome reception**
20h30 **Council dinner.** On invitation only

Friday 08h30 **Infections in pregnancy**

30 October

Chair: D. Rezeberga (LVA) & B. Stray-Pedersen (NOR)

- Biomarkers of chorioamnionitis: Is amnioscentesis necessary?
A. Ugwumadu (GBR)
- GBS vaccination: Where do we stand?
K. Slobod (USA)
- How intensive should we screen for Toxoplasmosis and CMV?
B. Stray-Pedersen (NOR)
- Can Candida be fearsome in pregnancy?
L. Petricevic (AUT)

10h00 **Coffee break**

10h30 **Free communications/ Electronic poster session I - HPV and STI**

Chair: P. Greenhouse (GBR) & C. Rodriguez Cerdeira (ESP)

10h30 **Free communications/ Electronic poster session II - Vulvovaginitis**

Chair: A. Ugwumadu (GBR) & J.S. Jensen (DNK)

12h00 **Lunch**

13h30 **Free communications/ Electronic poster session III - Infections in pregnancy**

Chair: D. Rezeberga (LVA) & B. Stray-Pedersen (NOR)

13h30 **Free communications/ Electronic poster session IV - Vulvovaginitis**

Chair: L. Petricevic (AUT) & W. Mendling (DEU)

15h00 **Coffee break**

15h30 **Sexually Transmitted Infections**

Chair: J. Martinez de Oliveira (PRT) & H. Verstraelen (BEL)

- Tubo-ovarian abscesses and pelvic peritonitis: Hungarian experience
I. Sziller (HUN)
- Is Chlamydia being over-emphasized?
P. Horner (GBR)
- Pelvic Inflammatory Disease: an update
P. Judlin (FRA)
- Responsible use of antibiotics
U. Dumpis (LVA)

17h00 **End of session**

Saturday 08h30 **Vulvovaginitis I**

31 October

Chair: W. Mendling (DEU) & D. Matule (LVA)

- Asymptomatic BV: Does it exist?
P. Hay (GBR)
- (Over) use of molecular biology
G. Donders (BEL)
- Towards defining probiotics as a drug
A. Palmeira de Oliveira (PRT)
- Understanding vaginal microbiota to improve patient care
P-A Mårdh (SWE)

10h00 **Coffee break**

10h30 **HPV**

Chair: J. Zodzika (LVA) & J. Paavonen (FIN)

- Modern screening algorithm for HPV
J. Dillner (FIN)
- Contamination and Non-sexual transmission of HPV
M. Merckx (BEL)
- Long term efficacy of HPV vaccination
J. Paavonen (FIN)
- Biomarkers to predict HPV related cancer
P. Sneijder (NLD)

12h00 **Lunch**

13h30 **Resistant Trichomonas: A ghost or a devil?**

Chair: T. Crucitti (BEL) & P. Greenhouse (GBR)

- State-to-the-art in diagnosis and management of Tv
A. Andreasen (GBR)

- Trichomonas v.: The Trojan horse
P. Rapelli (ITA)
- Resistant Trichomonas v.: diagnostic and therapeutic challenges
T. Crucitti (BEL)

Free Communications

- Case of multi resistant TV
G. Donders (BEL)
- VlaRest: Treatment habits and resistant TV in Flanders
K. Ruban (BEL)

15h00 **Coffee break**

15h30 **Vulvovaginitis II**

Chair: L. Petricevic (AUT) & H. Verstraelen (BEL)

- The problem of fluconazole resistance
J. Sobel (USA)
- TBC
F. De Seta (ITA)
- Peridontitis and Preterm Birth: What are the mechanisms?
D. Surbek (DEU)
- Debate: Sense of use of antibiotics and probiotics
R. Lamont (GBR) & P-G. Larsson (SWE)

17h00 **End of session**

Sunday

Meet the expert: **Unresolved Clinical Issues and Research items**

1 November

09h00 **UCI part 1**

Chair: P. Hay (GBR) & J. Sobel (USA)

- HPV vaccination in older women?
J. Paavonen (FIN)
- The fate of vaginal culture
H. Verstraelen (BEL)
- Intermenstrual bleeding: an STI?
P. Greenhouse (GBR)
- Should we screen for M genitalium?
J.S. Jensen (DNK)
- Post-conisation vaccination?
J. Zodzika (LVA)

10u30 **Coffee break**

11u00 **UCI Part 2**

Chair: W. Mendling (DEU) & R. Lamont (GBR)

- Vulvodynia pathogenesis: final understanding?

- P. Tommola (FIN)
- Vaginal discharge without pathogens.
J. Sobel (USA)
 - Amniocentesis for subclinical intra-amniotic infection?
A. Ugwumadu (GBR)
 - Aerobic vaginitis: where to go?
G. Donders (BEL)
 - Vestibulectomy or other means?
C. Rodriguez-Cerdeira (ESP)

12h00 **End of congress - closing remarks**

Dace Rezeberga, Congress president

Gilbert Donders, Co-organizer

12h30 **Farewell lunch**

Friday, October 30

Free communications/ Electronic posters session I - HPV and STI

Chair: P. Greenhouse (GBR) and C. Rodriguez Cerdeira (ESP)

- 10h30 FC 1 PCR vs Wet Mount Microscopy for *Trichomonas vaginalis* diagnosis: results from 65 vaginal samples.
A. Palmeira-de-Oliveira (PRT)
- 10h50 FC 2 STI in Baltic countries: findings from national population based surveys.
D. Rezeberga (LVA)
- 11h05 FC 3 Correlations between cervical cytological and high risk HPV RNA tests before and after changes of cytological terminology in Latvia.
J. Zodzika (LVA)
- 11h20 FC 4 Vaginal ecosystem changes and persistence/recurrence of the cervical intraepithelial neoplasia (CIN) in patients in Riga East Clinical University Hospital Colposcopy Reference Centre.
I. Jermakova (LVA)
- 11h35 FC 19 Laparoscopy is essential in diagnosing salpingitis - impact on chlamydia screening.
U. B. Hoyme (DEU)
- 11h50 EP 1 Primary Herpes genitalis due to auto-innoculation.
K. Ruban (BEL)

Free communications/ Electronic poster session II - Vulvovaginitis

Chair: A. Ugwumadu (GBR) and J.S. Jensen (DNK)

- 10h30 FC 6 Mirena Femicare
G. Bellen (BEL)
- 10h50 FC 7 Polyclonality of *Gardnerella vaginalis* is positively associated with its high vaginal loads.
M. Plečkaitytė (LTU)
- 11h05 FC 8 Real-time PCR-based approach to flora assessment and diagnosis of aerobic vaginitis.
T.A. Rumyantseva (RUS)
- 11h20 FC 9 VVS Femicare
K. Ruban (BEL)
- 11h35 EP 2 Immune Activation Enhances Epithelial Nerve Growth in Localized Provoked Vulvodynia.
P. Tammola (FIN)
- 11h42 EP 3 Comparison of the vaginal microbiome of reproductive-aged women living in the Amazon and in the southern region of Brazil.
C. Marconi (BRA)
- 11h50 EP 4 Cervicovaginal proteomics and metronidazole treatment failure in bacterial vaginosis.
C. Marconi (BRA)

Free communications/ Electronic poster session III - Pregnancy

Chair: D. Rezeberga (LVA) and B. Stray-Pedersen (NOR)

- 13h30 FC 10 Facts on contraception use and unintended pregnancies in HIV-infected women in Switzerland.
B. Martinez de Tejada (CHE)
- 13h50 FC 11 How common are chlamydia related bacteria in early pregnancy and are they associated with miscarriage or preterm birth? Community-based prospective cohort study.
J. S Jensen (DNK)
- 14h05 FC 12 Evaluation of TLR-1, TLR-2, TLR-4 and TLR-6 gene and protein expression in maternal PBMCs and polymorphonuclear neutrophils during normal pregnancy and preterm labor.
M. Guimarães da Silva (BRA)
- 14h20 FC 13 Influence of hepatitis B surface antigen seropositivity on pregnancy outcome in Riga Maternity Hospital.
S. Krievina (LVA)
- 14h35 FC 14 The effect of an antenatal screen-and-treat program at early gestation on preterm delivery and pregnancy outcomes.
A. Farr (AUT)
- 14h50 EP 5 Association between vaginal pH and *Lactobacillus* species and bacterial vaginosis associated microorganisms in small population of women in their first trimester of pregnancy.
N. Berza (LVA)

Free communications/ Electronic poster session IV - Vulvovaginitis

Chair: L. Petricevic (AUT) and W. Mendling (DEU)

- 13h30 FC 15 Efficacy and Safety of Oral VT-11611 in a Randomized Phase 2a Study in Patients with Acute Vulvovaginal Candidiasis: Six-Month Follow-Up.
S. Brand (USA)
- 13h50 FC 16 Gram staining and qPCR for detection and classification of abnormal vaginal flora – a clinical study in a Danish IVF setting.
T. Haahr (DNK)
- 14h05 FC 17 Relation between wet mount findings and major PAP smear abnormalities.
P. Veira-Baptista (PRT)
- 14h20 FC 18 Contraception and Aerobic Vaginitis.
P. Veira-Baptista (PRT)
- 14h35 FC 5 The controversies about effect of abnormal vaginal microflora on fetal growth
N. Vedmedovska (LVA)
- 14h50 EP 7 Severe, acute, recurrent and highly resistant candidosis of vagina and oral cavity in non immune compromised patient: clinical case.
N. Saginadze (UKR)
- 14h57 EP 6 Types of vaginal microbiota in small population of pregnant women.
N. Berza (LVA)
